solo™ 365
detectortesters

COMPLETELY FAMILIAR. ENTIRELY INNOVATIVE.

Solo 365 takes everything expected from a Solo product, pairs it with the very latest technology and wraps it in a new modern slim-line design. It's lighter to use, quicker to test, suitable for more applications and almost impossible to over-apply.

solo 365 detectortesters

Solo 365 is the latest addition to the Solo range. Using non-hazardous, environmentally-friendly cartridges to generate instant smoke - testing has never been this easy.

FASTER

Solo 365 generates smoke on demand, allowing for faster testing around site and fewer repeat alarms.

SIMPLER

Solo 365 boasts a slim, lightweight design allowing for simple testing in easy and hard to access spaces.

CLEANER

Detector friendly smoke, generated on-demand, eliminates the risk of detector contamination.

FOR ASD SYSTEMS

There's even more to Solo 365 – the ability to functionally test ASD systems. This exciting development is made possible through a specialist adaptor which is fitted to Solo 365 in place of the standard test cup.
