

Addressed modules

## FDVMC120

Output mini module

Addressed mini modules interfaceable with unit loop devices

Power 10-40V

Average power consumption 120 &#956;A

Power consumption of LED 6mA (24V – line)

Fitted with integrated insulation circuit

Relay output 30Vdc 2A

Operating temperature – 30°C to 70°C

Max humidity 95% with no condensation

Dimensions 75x55x30mm

Weight: 200g
