Manual Call Point FD7150M

The **Manual Call Point FD7150** is designed for indoor installation. It has a built-in short circuit isolator for the signal loop and all statuses from FD7150M are sent and visualised on the control panel.

Certified to EN54-11/17

Certification:

Technical Features

Minimum Operating Voltage	18V DC
Nominal Operating Voltage	24V DC
Maximum Operating Voltage	30V DC
Current Consumption in Duty Mode	290+/-30 μ A
Electrical Installation	through terminal for connecting wires with cross-section (0.5-1.5) mm ²
Application	INDOOR USE, TYPE A (direct operation)
Operational Temperature Range	minus 10°C - plus 55°C
Relative Humidity Resistance	(93 \pm 3)% at 40°C
Dimensions, Base Included	98 x 96 x 51 mm
Weight	0.150 kg
Material	ABS
