

ANCILLARY

SBB-1

Surface Mounting Back Box

Features

- ▶ 4 cable entry holes suitable for cable glands (2 glands supplied)
- ▶ Colour matched to both ivory and white detector ranges
- ▶ Approved for use with Hochiki Sensor and Base range
- ▶ Provides moisture and dust resistant fixing
- ▶ Ideal for concrete surface fixing
- ▶ Marine approved version available (MBB-1).

Description

The design of the SBB-1 provides a dust-proof and secure fixing for the Hochiki CDX and ESP Range of Detectors and Sensors, and their associated Bases. It can be installed on a variety of different fixing surfaces and because it has been manufactured to match the colour of Hochiki's range of products, it provides an aesthetically pleasing solution where surface fixed devices are required.

The housing supports four 20mm glanded entries, for zone, or loop cabling access. It is also supplied with base fixing screws and two cable. The detector base fits directly onto the SBB-1 and sits within a slight recess. This provides an accurate fit and the protection against dust ingress.

Specification

Ordering codes	SBB-1
Maximum humidity	95% RH - Non-condensing (at 40°C)
Colour	Ivory or White
Weight (g) / Diameter (mm) / Height (mm)	123 / 102 / 38
Compatible bases	YBN-R/3, YBN-R/6, YBN-R/6SK, YBO-R/6, YBO-R/6, YBO-R/6RN, YBOR/6RS, YBO-R/6PA
Fixing centres (mm)	116
Maximum wire thickness	2.5mm ² cables
