Solo A10S Smoke Aerosol
Non-Flammable Solution

The new HFC-Free smoke aerosol for the functional testing of smoke detectors. Like all Solo products, Solo A10S is approved by leading detector manufacturers and offers the reliability and quality expected by the industry.

- **Simple** to use
- **Fast** activation – via Solo 330 dispenser
- **Rapid** clearing
- **Compatible** with leading detector brands

Choosing the right aerosol

Chemicals used in detector test equipment need to be compatible with the plastics from which the detectors are manufactured. Not all test aerosols offer this compatibility which can lead to problems such as stress cracking in detectors, residue build up, damage to components and harm to the environment. Solo aerosols are the most thoroughly researched solutions – approved by leading detector manufacturers, third parties and fire engineers.

- **UL & ULC Certified**
- **Approved** by world leading detector manufacturers
- **Non-flammable** (same as Solo A3)
- **HFC-Free** – fully compliant with latest regulations: Protecting the global environment
- **Silicone Free** – prevents detector contamination: Protecting the local environment

Solo A10S is available in the standard 250ml can.

Ordering information	Product Code:
Solo A10S 250ml	**SOLO A10S-001**
Sold in multiples of 12
